Mr. Ward MacAllister complains that the masses do not give "society" fair treatment. Whatisthis thing "society" fair that Mr. MacAllister talks about, any. how? It has been explained as "something you can't get into." Thank thing you can't get into." Thank thing you can't get into." Thank the process of the proc heaven that it isn't recruited by a draft. It seems to be a Grand Lodge of Bickering, a gilded hornet's nest, a perfamed club of slanderers. If we are to believe what it says about itself it leads a petry life of veneered misery and hasn't a

Two Ways of Dealing With the Public.

The city of Wheeling and the Baltimere & Ohio Railroad Company do not get along very well together. When the city wants the railroad company to do something the railroad does not do it. When the railroad company asks the city for something it does not get it quickly.

The city of Wheeling and the Wheel.

The call wheeling and the Wheeling and the Wheel.

The call wheeling and the Baltimere is the discovery of the celebrated Dr. Is the discovery of the celebrate

ing Bridge & Terminal Railway Company get along well together. The city has not had occasion to ask of that company but the company has asked of the city

but the company has asked of the city and it has received. This company has just had one of its requests quickly granted in the face of vigorous opposition.

The Baltimore & Ohio Rairoad Company is not in the habit of making plain just what it does want. When it gats a concession which is supposed to solve a long standing problem it makes no use of that concession. It usually comes to the front about the time some other railroad company wents comething, and it would be strange if it did not create the impression that its appearance at such line in the laster of the laster, and is the laster of the laster, and is the laster of the laster and is the laster of the laster. So it provides its enemies with weapons

and disgrms its friends. The Wheeling Bridge and Terminal Railway Company alway knows what it wants, comes before the city with a ma

tured proposition and is able to point to obligations filled up to date. Every stone it has laid, every foot it has dug to a tunnel, pleads its cause. True, Ohio county is a stockholder in this enterprise, but this does not explain the diference. The difference is to be found in the difference between a do-something policy and a do-nothing policy. This is what moves the city to deny to the one and give to the other in the fac Children Cry for Pitcher's Castoria. of protest. It is human nature and it is

business-like. Men look for results and to results.

There is no feeling in this community against the Baltimore & Ohio Rallroa Company which cannot be overcome by that company. The few who harbor an old-time grudge and are disposed to fight the Baltimore & Ohio whenever it raises its head, would not amount to a bill of beans in the way if that company were to get right down to serious busi-ness, deal openly and decisively with the city of Wheeling and give the friends the city of Wheeling and give the friends Detroit News. the city of Wheeling and give the friends of local progress a chance to point to something substantial. a better basis. Rond Reform.
